### Overall Comments:

- 1) The phonics test results have been **outstanding**. We have maintained a 96% pass rate in keeping with our 2015 and 2016 results. This has been achieved despite an increase in pupil numbers from 25 to 31. Alhamdulillah, this is testament to the hard work of pupils, teachers and teaching assistants, together with strong partnerships with our parents.
- 2) With a 96% pass rate, the school has exceeded both local and national averages based on historical trends. (Averages for 2017 will be published in September 2017)
